About Shad
At Shad Canada, our goal is to inspire youth from across Canada to solve problems and influence positive change in the world through STEAM (science, technology, engineering, arts, mathematics) and entrepreneurship. We believe that when young people are empowered to take risks and explore their potential, they go on to impact their communities in meaningful ways and inspire others to do the same.

Alumni of the program go on to create an impressive network of social innovators and industry leaders, putting the program's values into practice across a range of social and professional sectors in ways that facilitate lasting change.

About ShadAnywhere
ShadAnywhere is a transformational month-long STEAM and entrepreneurship program in July for Grade 10 and 11 students. The program is offered through a digital campus where students participate online from wherever they're spending their summer. ShadAnywhere affords students an amazing opportunity to prepare for post-secondary education, participate in university level lectures and labs, and hear from professional keynote speakers and knowledge keepers. The program runs from Monday, July 1 to Friday, July 26, 2024.
